

FIRST CALL
SITE SERVICES

First Call, First Choice

Site services for the
construction industry.

Phase 1:

Pre- Construction Phase

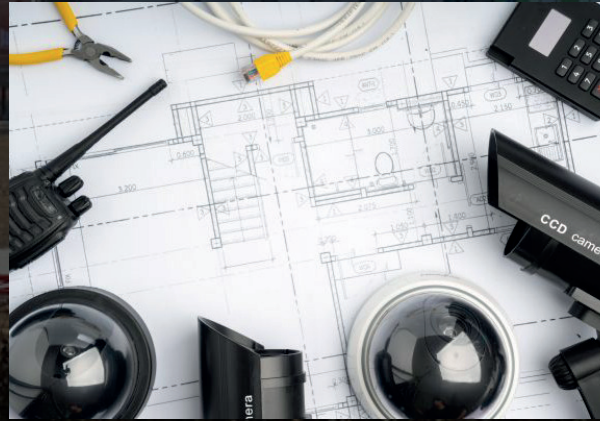

Preparing the site and establishing the resources that are needed before any construction work begins is essential for ensuring the most efficient start to any project.

Preparing the site and establishing the resources that are needed before any construction work begins is essential for ensuring the most efficient start to any project.

1. Perimeter Set-up / Hoarding

Custom site hoarding creates a safe secure site and is a great tool for advertising your project.

2. Security Plans

Construction sites lose millions of pounds each year to equipment and material theft (and only a fraction of what is lost is ever recovered), causing delays in project completion.

We will create an effective site security plan that will safeguard your site from all potential threats.

3. Access Control Systems, CCTV and Advanced Security Systems

Our access control systems provide an array of features, including RFID cards for secure entry, digital keypads with varying levels of access per user, facial recognition technology to reduce personnel identity fraud, etc.

Phase 1: **Pre-Construction Phase**

4. Security Guarding and Dog Handlers

Our gatemen and security officers are carefully recruited and screened, expertly trained and thoroughly supported to deliver a first-rate service.

5. Mobile Patrol Service

Our accredited mobile patrol officers ensure the safety of all your premises. Whether it's construction sites or domestic sites, we have you covered, allowing business to operate with peace of mind.

6. Fire Safety System

Our team of experts can conduct fire risk assessments, provide training to staff on fire safety procedures and equipment usage and offer ongoing support to ensure compliance with regulations.

7. Site Buildings

Each individual project will have different requirements, but we can supply robust and secure temporary site buildings, including site managers' offices and material storage and welfare facilities for your workforce, etc.

8. Toilets

We have a number of eco-friendly solutions to make a mess-less job.

9. Generators

With a wide array of generators we have all your needs covered.

10. Pest Control

We provide vital pest control management to construction sites at each stage of the build. Our pest control services ensure that your construction site remains safe, clean, and pest-free throughout the entire building process.

11. Bio Hazard Cleaning Removal Service

Cleaning and preparing a building site prior to the commencement of building work is a key service that we provide, including decontamination, needle picks, etc. All materials are disposed of in the safest and most environmentally friendly way possible.

12. Waste Removal

Waste management issues affect not only security but also the availability of storage space, efficiency, scheduling and cost of its removal. Of course, environmental sustainability is also of paramount importance.

Phase 2:

Construction Phase

Our range of services will ensure your site is established and its day-to-day logistical operations are managed to the highest standards, making sure the site is kept efficient, secure, safe and clean.

Our range of services will ensure your site is established and its day-to-day logistical operations are managed to the highest standards, making sure the site is kept efficient, secure, safe and clean.

1. Shuttle Bus Driver and Shuttle Bus Rental Service

A shuttlebus system with an aim to help enhance job site productivity and safety, by taking the weight of the transportation needs off your shoulders.

2. Cleaning

Our range of professional cleaning services, including routine, builders and deep cleans throughout the entirety of the construction process, ensures your site is contamination-free, safe for your workforce and as efficient as possible.

3. Traffic Marshals / Banksman

Managing and directing people and vehicles in a safe and efficient manner. Our professionals may also set up traffic cones and barriers, conduct risk assessments and complete other duties, such as monitoring pedestrian walkways.

Phase 2: Construction Phase

4. Gatemen

Gatemen offer a vital role in construction projects, manning the main entrance checking anyone that wishes to enter the site.

5. Labourers

Professionals who help with all site needs.

6. Handymen / multi-skilled workers

Skilled individuals that are able to perform a wide range of tasks and repairs to keep up productivity.

7. Slinger / Signaller

Our specialised slingers ensure safety and clear communication between himself and the crane operator resulting in successful operations.

8. Forklift / Telehandler Drivers

Ensuring the driving/operating of forklifts and other site machinery in a safe manner while unloading/loading materials around site.

9. Fire Marshals

Complete fire safety management is paramount to site safety. We can provide competent and experienced marshals to ensure your peace of mind.

10. Hoist / Lift Driver

A hoist operator controls hoisting equipment that keeps the job moving seamlessly.

Phase 3:

Post Construction

Once you've completed the build, we will ensure that your construction site is cleared and safe, ready for the new owner to take over. We will coordinate the logistics necessary to bring the project to a successful conclusion, smoothly and seamlessly.

THE
BRIDGE
CLEAN!!!
IF YOU SPILL
ITCLEAN
IT UP !!!

Our range of professional cleaning services, including routine, builders and deep cleans throughout the entirety of the construction process, ensures your site is contamination-free, safe for your workforce and as efficient as possible.

Post-Builders Clean
